

# A Million Reasons Why Conformation Matters Study

Relationships Between 1<sup>st</sup> Lactation Average SCS and Conformation

#### Data

Holstein Association USA official classification scores were used for linear classification data

The first classification score for a cow assigned in her first lactation was used for analyses

Official DHIA records were used for production and culling data

Only cows born after 1/1/90 were included in analyses

Only test dates after 1/1/00 were included in test day analyses

#### Data

Lactations starting between 1/1/00 and 8/27/21 were included in analyses

For lifetime production analyses only first 6 lactations were included

Only cows calving for first time before 1/1/16 were included in lifetime analyses

Only animals with complete 305-day lactations were included in 305-day milk analyses

All DHIA data was edited to remove biologically unlikely test day results

#### Data

Only 1st lactation records with age at first calving between 18 to 35 months were included

Lactation records with milking frequencies >3 were removed

After edits, 937,603 cows were available for analyses

5,496 unique herds were represented in the data set

Cows were only included in the final analysis if there were at least 5 herdmates in their herd, year, and season of calving

# Analyses

Cows were categorized into quartiles for each trait with approximately the same number of cows categorized into each category

The CORR Procedure of SAS 9.4 <sup>®</sup> was used to calculate correlations between type and production traits

The FREQ Procedure of SAS 9.4 ® was used for the percent of cows surviving to 6 years old analyses

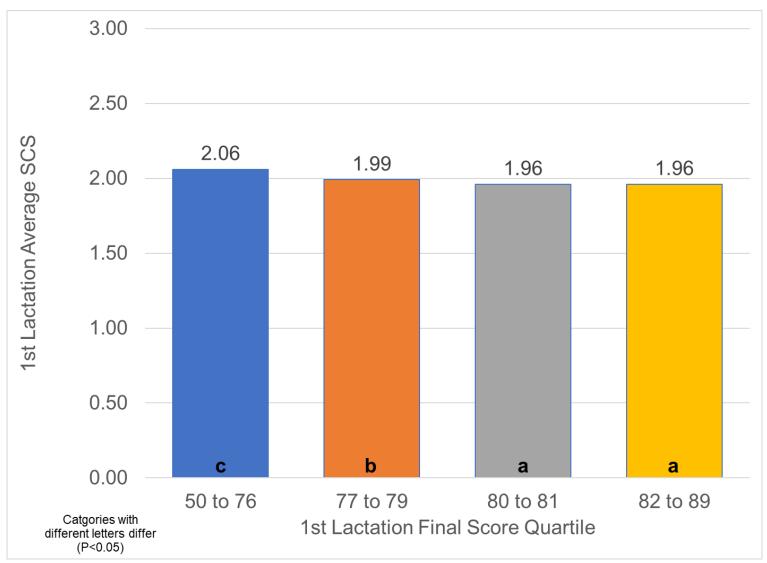

The MIXED Procedure of SAS 9.4 <sup>®</sup> was used for modeling 1st lactation ECM, SCS, lifetime DIM, and lifetime ECM using a compound symmetry covariance structure. Subject was herd-year-season. Milking frequency was a covariate in the 1st lactation ECM model

LSMeans are presented with statistical significance presented at p<0.05

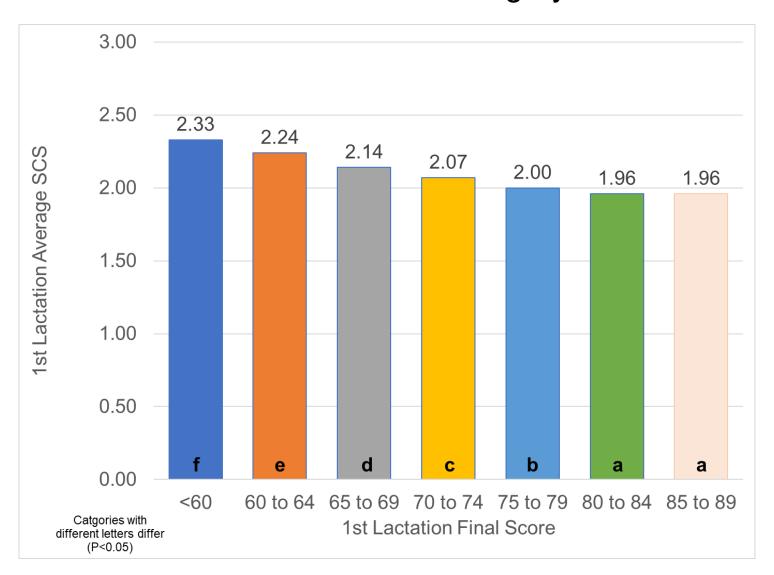

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Final Score Quartile

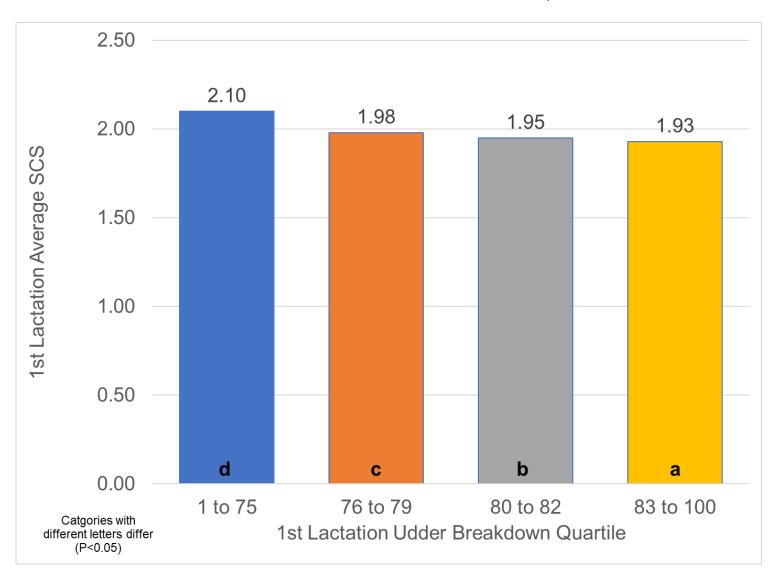

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Score Category

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Udder Breakdown Quartile

#### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Fore Udder Attachment Quartile

#### FORE UDDER ATTACHMENT - FU

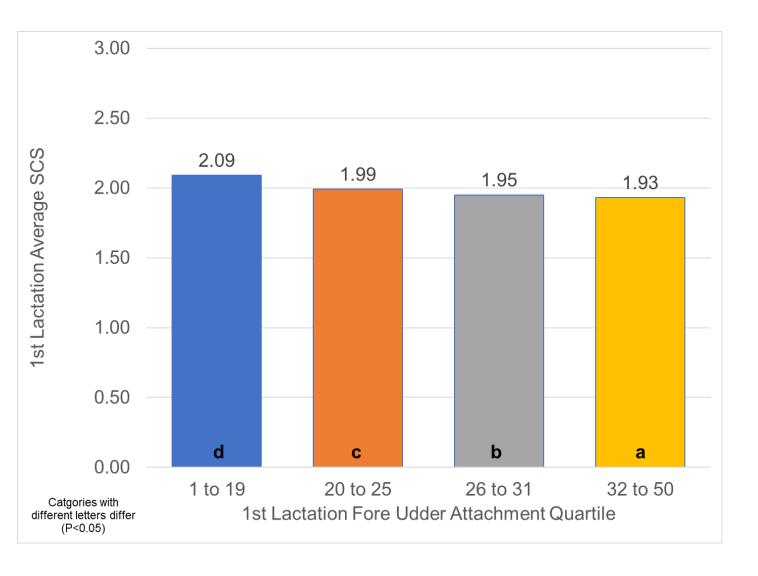

1-5 pts. Extremely loose

25 pts. Intermediate strength

45-50 pts. Extremely snug & strong

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Front Teat Placement Quartile

#### FRONT TEAT PLACEMENT - TP

1-5 pts.

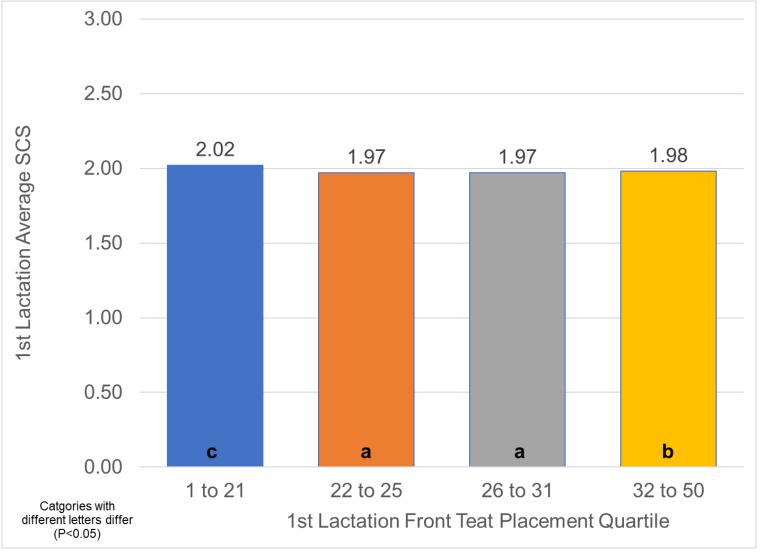

Extremely wide placement on outside of quarter

25 pts. Centrally placed on quarter

45-50 pts. Base of teats on extreme inside of quarter

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Rear Udder Height Quartile

#### **REAR UDDER, HEIGHT - UH**

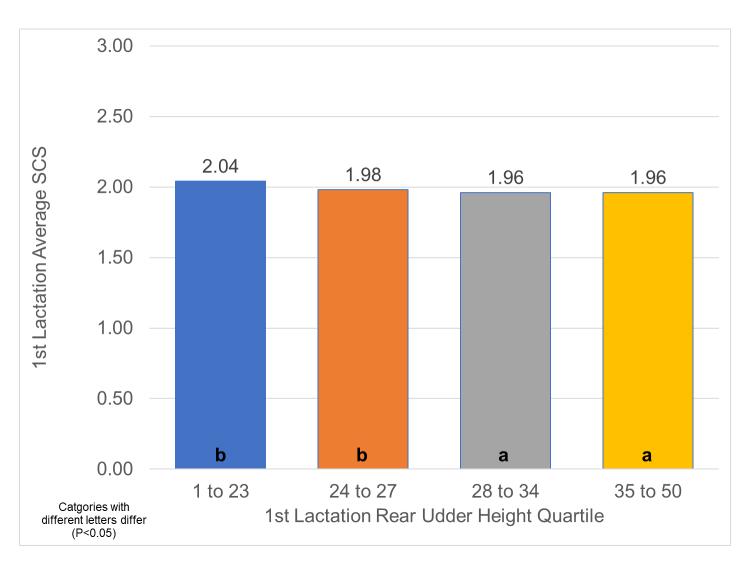

1-5 pts. Extremely low

25 pts. Intermediate height

45-50 pts. Extremely high

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Rear Udder Width Quartile

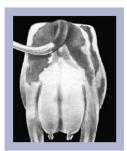

#### REAR UDDER, WIDTH - UW Primary Trait

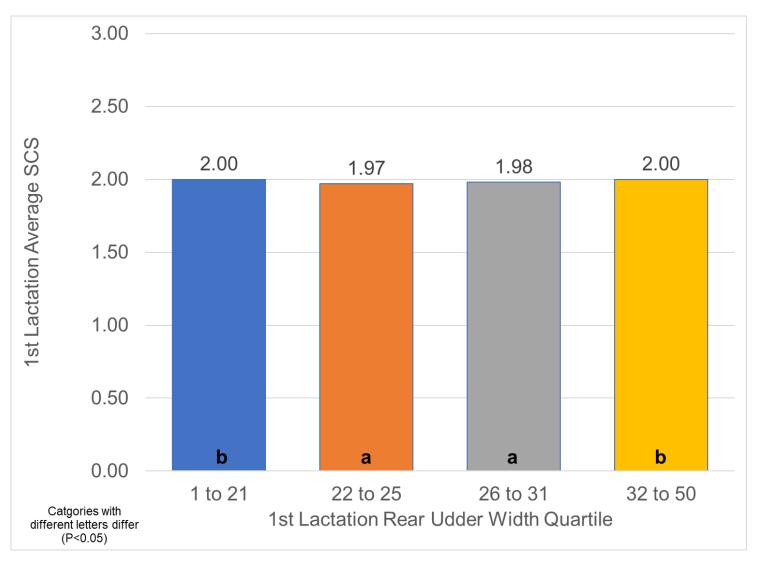

1-5 pts. Narrow rear udder

25 pts. Intermediate width

45-50 pts. Extremely wide rear udder

## 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Teat Length Quartile

#### FRONT TEAT LENGTH - TL Primary Trait

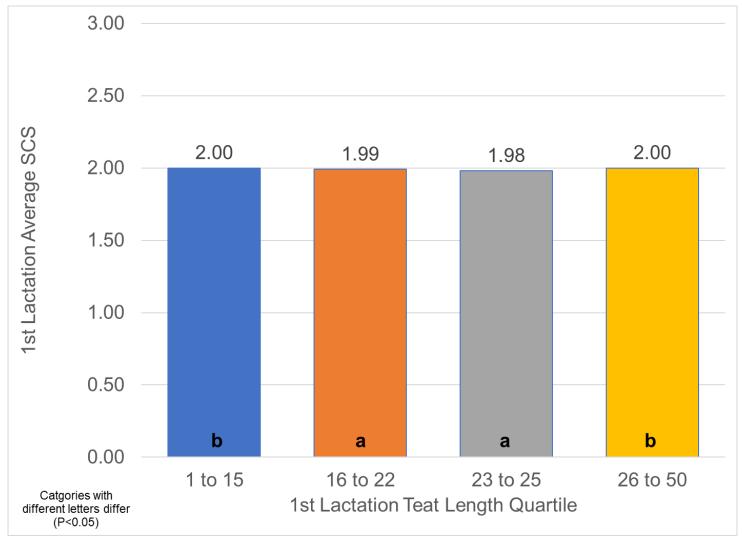

1-5 pts. 1-1/4 inches or smaller

25 pts. 2-1/4 inches

45-50 pts. 3-1/4 inches or longer

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Udder Cleft Quartile

#### **UDDER CLEFT - UC**

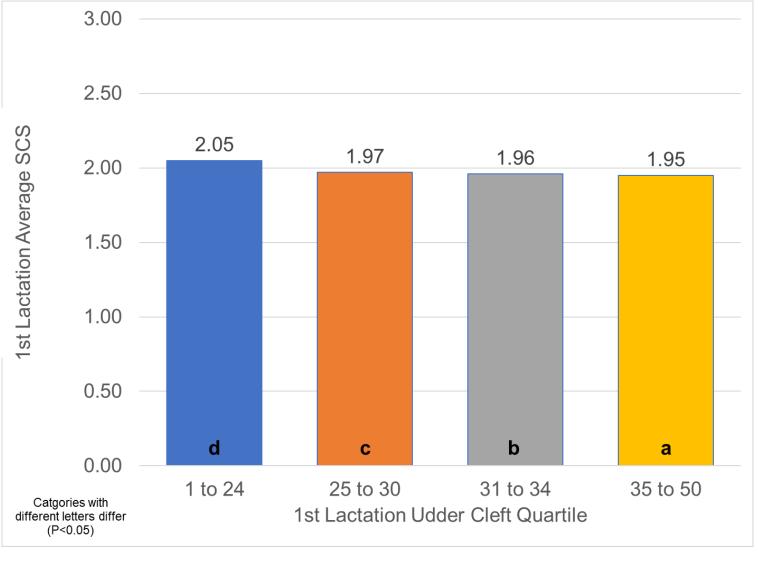

1-5 pts. Weak cleft

25 pts. Intermediate

45-50 pts. Extremely strong cleft

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Udder Depth Quartile

#### **UDDER DEPTH - UD**

1-5 pts.

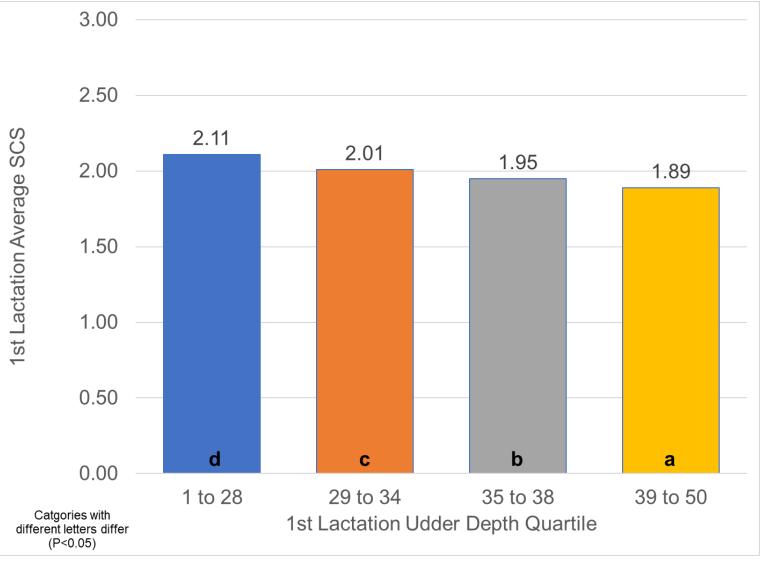

Very deep udder floor well below hocks

25 pts. Udder floor above hocks

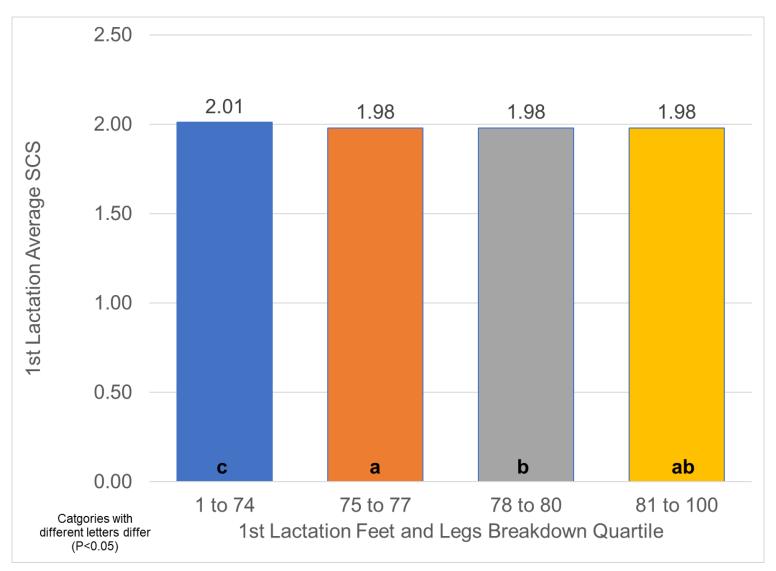

45-50 pts.
Extreme height of udder floor above hocks

### 1<sup>st</sup> Lactation Average SCS by 1st Lactation Feet and Leg Breakdown Quartile

## 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Foot Angle Quartile

#### **FOOT ANGLE - FA**

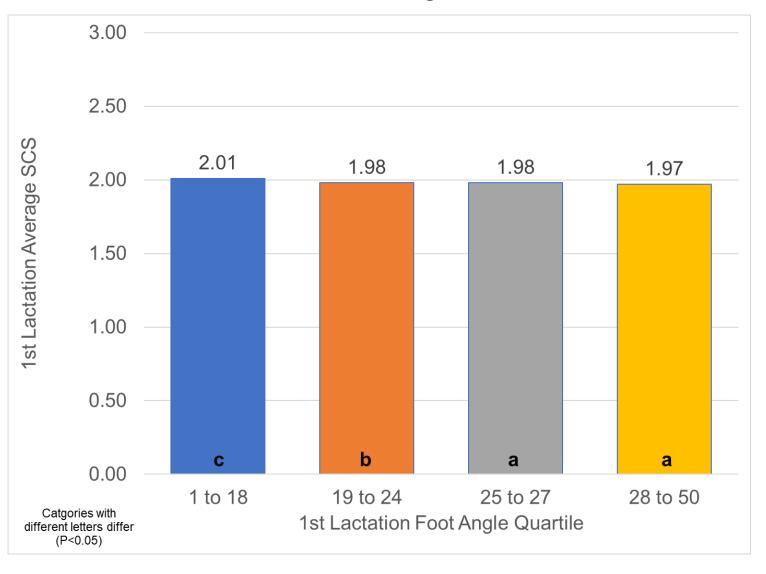

1-5 pts. Extreme low angle

25 pts. Intermediate angle

45-50 pts. Extremely steep angle

## 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Rear Legs Side View Quartile

#### **REAR LEGS, SIDE VIEW - LS**

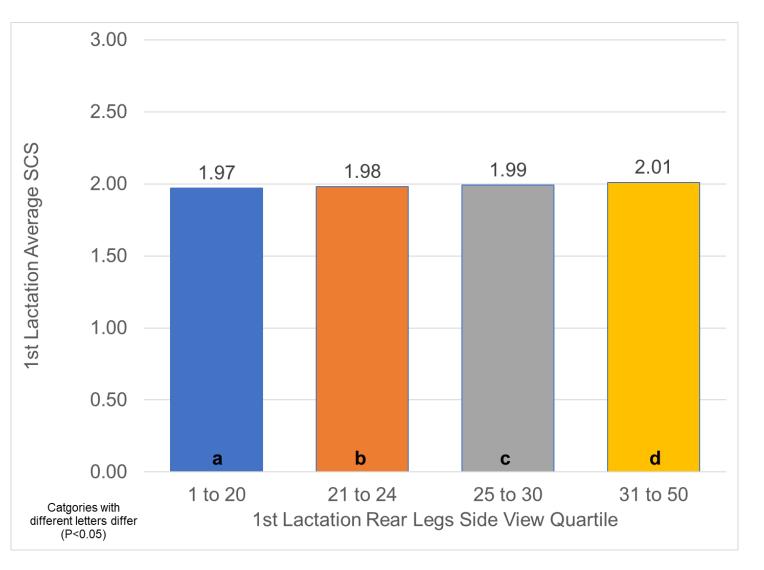

1-5 pts.
Posty and straight

25 pts. Intermediate set in hock

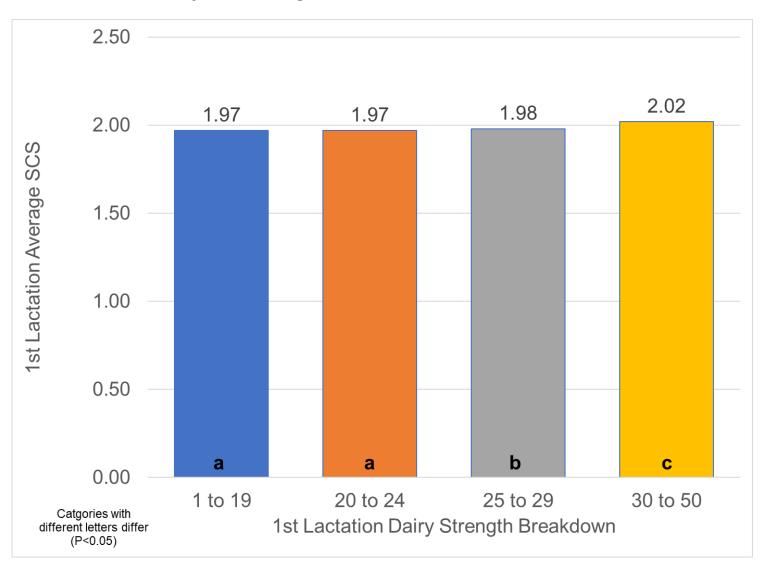

45-50 pts. Extremely sickled

## 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Dairy Strength Breakdown Quartile

# 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Dairy Form Quartile

#### **DAIRY FORM - DF**

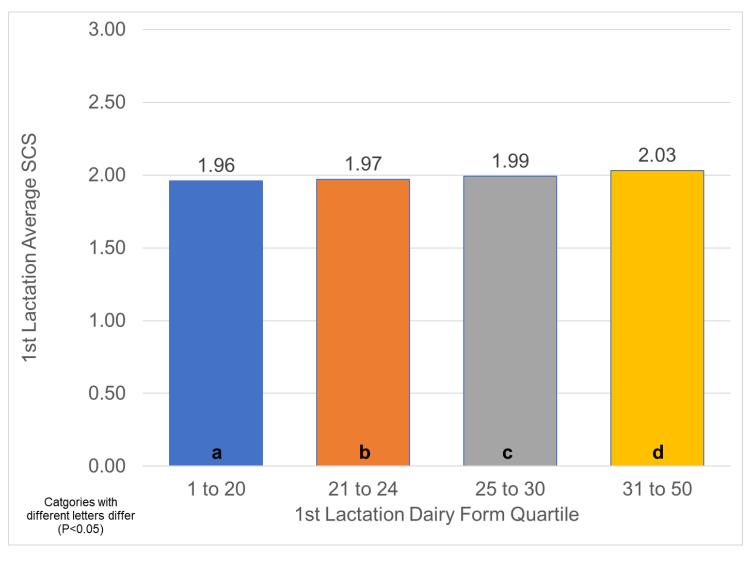

1-5 pts. Extremely tight

25 pts. Intermediate

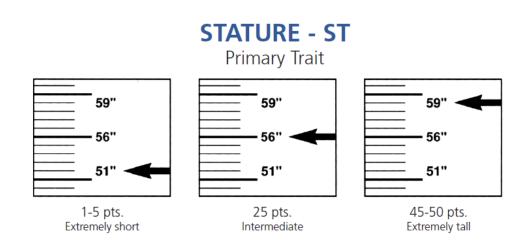

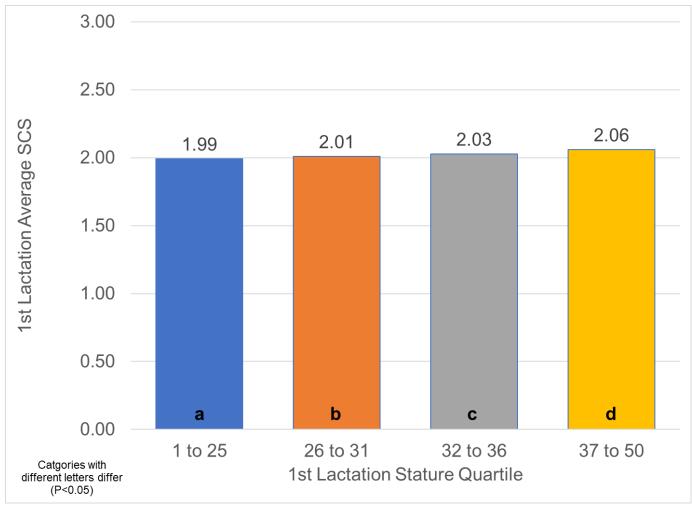

45-50 pts. Extremely open

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Stature Quartile

# 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Strength Quartile

#### STRENGTH - SR

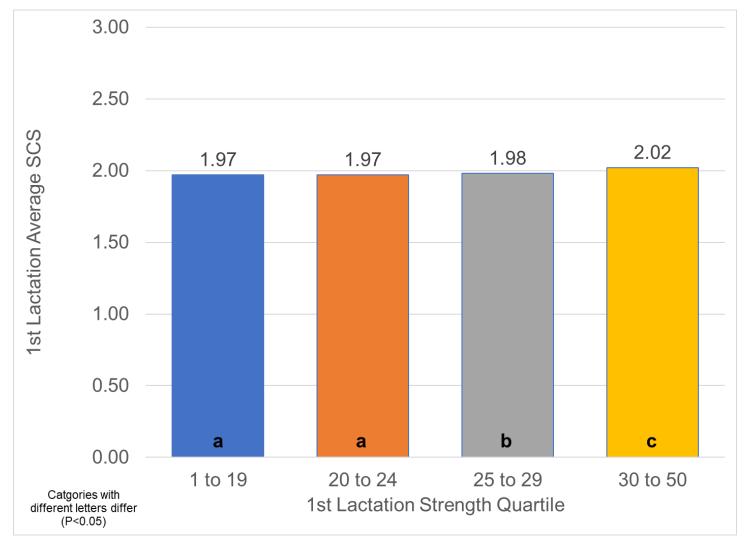

1-5 pts. Extremely narrow and frail

25 pts. Intermediate

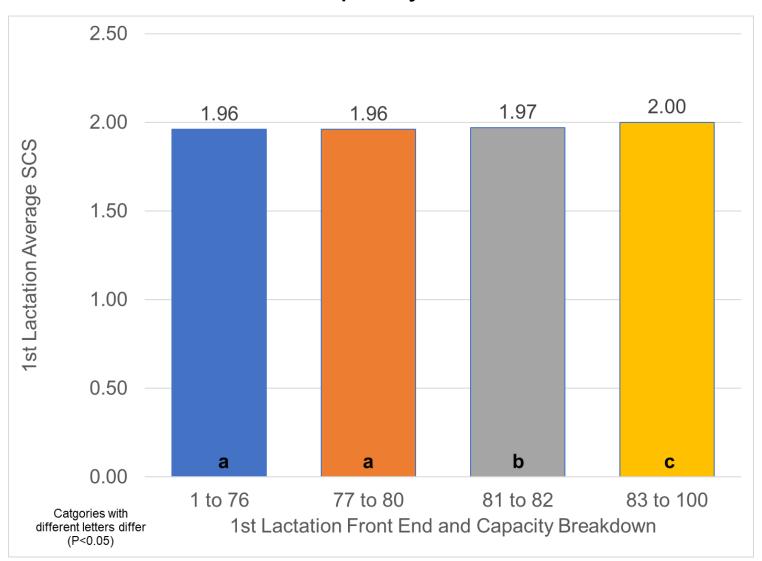

45-50 pts. Extremely strong & wide

#### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Front End and Capacity Breakdown Quartile

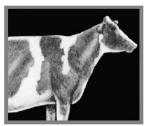

# 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Body Depth Quartile

#### **BODY DEPTH - BD**

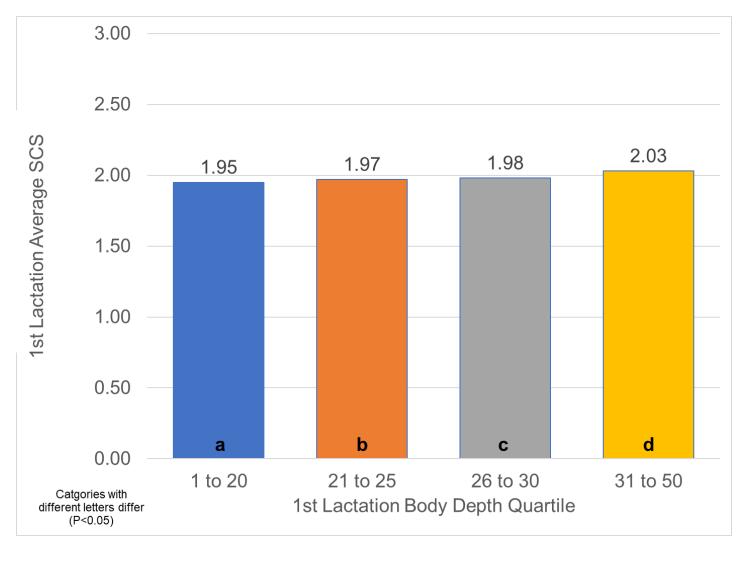

1-5 pts. Extremely shallow body

25 pts. Intermediate

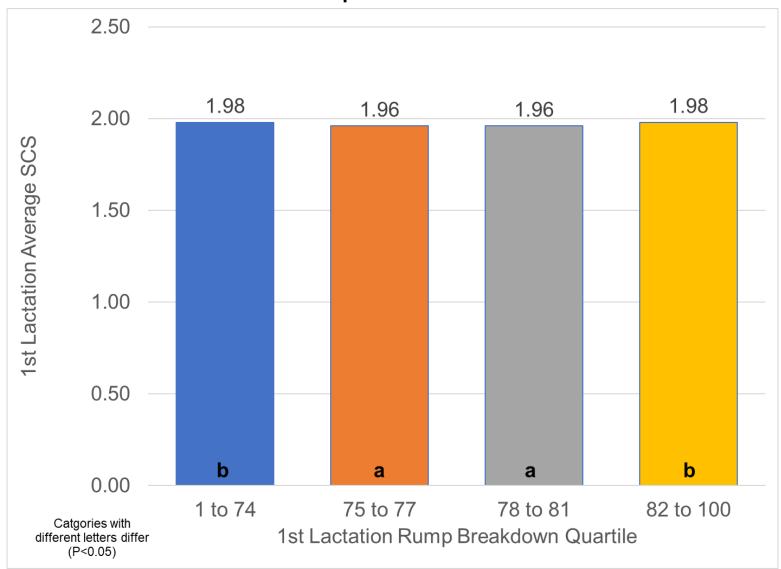

45-50 pts. Extremely deep body

## 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Rump Breakdown Quartile

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Rump Angle Quartile

#### **RUMP ANGLE - RA**

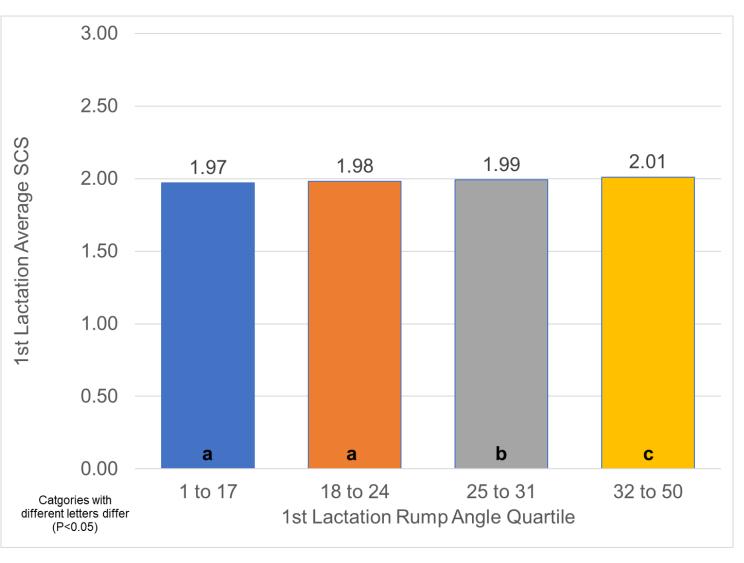

1-5 pts.
Pins clearly higher than hooks

25 pts. Slight slope from hooks to pins

45-50 pts. Extremely sloped from hooks to pins

### 1<sup>st</sup> Lactation Average SCS by 1<sup>st</sup> Lactation Thurl Width Quartile

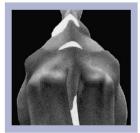

#### **RUMP WIDTH - RW**

1 pt. = 2" Extremely narrow

25 pts. = 4-1/2" Intermediate width

50 pts. = 7" Extremely open
