### HOLSIM - THE PRIME CHOICE FOR YOUR BEEF ON HOLSTEIN BREEDING PROGRAM

- HOLSim sires are **SimAngus** bulls that are most complementary to Holstein females.
- SimAngus bulls combine the strengths of two breeds (Simmental and Angus), giving them an economic advantage and making them the sought-after breed for beef on Holstein breeding programs.
- All HOLSim bulls are homozygous black and homozygous polled.
- Only elite bulls ranking in the top 98th percentile of the profit and science-based HOLSim Index, like IR-PRIMETIME, are eligible to sire HOLSim calves.
