

A. CERTIFICATE OF EMBRYO RECOVERY

Breed _____

Donor Name _____ No. _____
CC Ear Tag or Tattoo _____

Owner _____ Address _____
 Onset _____ AM
 Estrus Date _____ PM
Yr. Mo. Day

Service Sire _____ No. _____
CC Breeding Date _____
Yr. Mo. Day

ID Code _____ Freeze Date or Batch No. _____ Sexed Semen X or Y _____ Recovery Date _____
Yr. Mo. Day

Service Sire _____ No. _____
CC Total Recovered _____

ID Code _____ Freeze Date or Batch No. _____ Sexed Semen X or Y _____
 No. Cleaved/Degen. _____
 No. Unfertilized _____
 No. Transferred _____
 No. Frozen _____

Signature _____ Firm _____
Practitioner or Leader of the Embryo Production Team Recovering Embryos ET Code _____

B. CERTIFICATE OF EMBRYO TRANSFER (see reverse side for coding instructions)
ACCOMMODATES DIRECT TRANSFER

IF FROZEN

Date of Embryo Transfer _____ Surgical _____ Non-surgical _____ Other _____
Yr. Mo. Day
 if all trans. at one time

Freeze Date on straw _____
 Practitioner I.D. _____
 Straw No.'s _____

Days since Estrus of Donor _____

One Embryo was transferred to each of the following recipients unless it is noted that more than one was transferred.

RECIPIENT IDENTIFICATION
 Ear Tag, Registration
 or Tattoo No.

Signature _____ Firm _____
Technician/Practitioner or Team Leader that transferred the Embryos

ET Code _____ Phone () _____

**Use comment column for any special notations and/or identify the location of the opposite half of a divided embryo. Pregnancy can be noted.*

CONDITIONS FOR COMPLETING EMBRYO CERTIFICATES

- A. Complete one or more Certificate of Embryo Recovery for each recovery. Precede registration numbers of donor dam and donor sire(s) with the International Standards Organization (ISO) three letter country codes (cc). The responsible practitioner or leader of embryo production team signing this certificate is attesting to the fact that the donor dam was identified with her certificate of registration, that the service sire information was taken from a written record of services, and that all the information is true and correct.
- B. Certificate of Embryo Transfer will be completed to the extent that is necessary and/or appropriate to identify each recipient into which an embryo is transferred. If frozen embryos are transferred, the Certificate of Embryo Recovery will be completed by the responsible practitioner or by transferring from the original Certificate of Embryo Recovery or by attaching a copy. The practitioner or leader of embryo production team signing the Certificate of Embryo Transfer is attesting to the accuracy and completeness of the identification of the embryos being transferred and the identity of the recipients into which the embryos are being transferred. Days since estrus will be expressed in 1/2 day increments.

One copy of a complete Certificate of Embryo Transfer with Certificate of Embryo Recovery will be submitted to the appropriate breed office as required by the respective breed organization, which may require the record before resulting offspring can be registered or officially identified. One copy should be provided to the owner.

Should any embryo in a recipient as identified hereon change ownership, it is important that the requirements of the respective breed organization for recording the identification of the new owner be followed. This may be required before resulting offspring can be registered or officially identified. This would normally be the responsibility of the owner of record.

Use the following codes to describe the embryo, identify the breed and identify the month in all dates.

STAGE OF DEVELOPMENT	QUALITY OF EMBRYOS	MANIPULATION OF EMBRYOS		
No. Stage	Code 1. Excellent or Good	N - Not Manipulated	January	JA
1 Unfertilized	Code 2. Fair	D - Divided	February	FE
2 2- to 12-cell	Code 3. Poor	F - Female by Biopsy	March	MR
3 Early Morula	Code 4. Dead or degenerating	M - Male by Biopsy	April	AP
4 Morula		U - Sex Undetermined by Biopsy	May	MY
5 Early Blastocyst	Refer to IETS Manual,		June	JN
6 Blastocyst	Chapter 9, for	Use comment column to describe	July	JY
7 Expanded Blastocyst	description of codes.	other biopsies.	August	AU
8 Hatched Blastocyst			September	SE
9 Expanded Hatched Blastocyst			October	OC
		SEXED SEMEN	November	NO
		X - Female Y - Male	December	DE
