

2015 National Junior Star Performer

The National Star Performer award recognizes youth who have homebred cows with exceptional milk product and classification scores. All cows who are bred and owned by a Holstein Association USA Junior member who are classified at least Very-Good 85, and a 305-day (or less) production record of at least 25,000 pounds completed within the last calendar year are eligible for this recognition. Once the eligible cows are determined, they have a point value calculated based on their age-adjusted classification score and Mature Equivalent milk production using the formula listed below, and they are ranked based on that value. Ten cows will be recognized with this honor annually.
