Brandon Ferry is from Hilbert, Wisconsin. He and his wife, Shianne, along with their two children, Bryleigh and Ryker, own and operate Fer-Crest Farms and currently milk 70 Registered Holsteins and Jerseys with a BAA of 112.3. The farm sits on 40 acres and most of the feed is purchased. This allows them to focus on the cattle and their involvement in the sale and show circuits.

Brandon is a 2008 graduate from the University of Wisconsin-Madison Farm and Industry Short Course where he earned a degree in Dairy Herd Management. After graduating, Brandon continued to be a full-time professional fitter traveling throughout North America prior to him and Shianne starting to farm in 2010.

Brandon has had the opportunity to work with some great cattle such as the 2014 World Dairy Expo Supreme Champion, TJ Classic Minister Venus-ET. Venus was bred and developed by Brandon and Shianne along with partners, Greg and Joel Bourne, before being sold privately to River Valley in the Fall of 2013.
